

Next Generation Sequencing (NGS): current and future landscape in Scotland

NGS Enabled Precision Therapy for Sarcomas

Emerging Role for Precision Therapy Through Next-Generation Sequencing for Sarcomas
Wilky and Villalobos (2018)

JCO® Precision Oncology
An American Society of Clinical Oncology Journal

SSN recognises the area of NGS is emerging and more education is required for clinicians. Join our virtual educational event on **NGS: current and future landscape in Scotland**.

Save the date: Thursday 3rd March 2022 3:00pm - 5:00pm on MS Teams

Chair: Dr Ioanna Nixon

Sessions and Speakers:

Setting the scene - results of survey on NGS: Dr Ioanna Nixon, Consultant Clinical Oncologist, Regional QI co-Lead and ex-SSN Clinical Lead, NHS Greater Glasgow and Clyde

NGS for dummies: Claire McKeeve, Somatic Programme Manager, Laboratory Genetics, NHS Greater Glasgow and Clyde

Turning the “possible” into “actual” - Clinical perspective on value of genomics in cancer care: Professor Charlie Gourley, Chair of Medical Oncology and Honorary NHS Consultant Medical Oncology, Clinical Director, CRUK Edinburgh Centre

Value of NGS: views of a pathologist: Dr Anca Oniscu, Consultant Pathologist, National Clinical Lead for Molecular Pathology, NHS Lothian
